Louisiana birders,

If you have any remaining “winter” hummingbird information to submit, please do this as soon as convenient. This especially includes unreported birds and LO dates. Please note that I am not tracking spring arrival dates of Ruby-throated Hummingbirds.

Observations or corrections can be sent to HUMNET, LABIRD, or me (Erik Johnson, ejohn33 AT lsu.edu). Historic western winter hummingbird annual summaries can be found on the Louisiana Ornithological Society website (www.losbird.org).

Also, please look at the report and correct any mistakes of your birds that you notice (with “ctrl-F”, you can search by your name). I am not perfect and likely have let details slip.

Thanks so much for everyone’s hard work tracking, reporting, and enjoying your wintering hummingbirds. I already can’t wait until this fall. Just 3 long hot months until the first birds return!

Happy hummingbirding!
