

REPORT FORM

This form is intended as a convenience in reporting observations of species on the LBRC Review List. The LBRC recommends the use of this form or this format when submitting records for review (to assure that all information involving an observation is accounted for). Attach additional sheets if necessary. Please print or type. Attach drawings, photographs, or tape recordings, if available. Include all photos if an obscurely marked species. When completed, mail to: LBRC Secretary, c/o Museum of Natural Science, 119 Foster Hall, Louisiana State University, Baton Rouge, LA 70803-3216.

1. English and scientific name: FERRUGINOUS HAWK ; BUTEO REGALIS
2. Number of individuals, sexes, ages, general plumage (e.g., 2ad. in breeding plumage): 1 IMMATURE
3. Locality: LOUISIANA CALCASIEU (LAKE CHARLES)
state parish
ON the south side of intersection of NATALIE Rd. + WARDLINE Rd
specific locality
4. Date(s) when seen: DECEMBER 24, 1995
5. Times of day when seen: 10:30 AM
6. Reporting observer and address: DANNY BARRON, 220 1/2 S. STANFORD
SULPHUR, LA 70663
7. Other observers accompanying reporter who also identified the bird: NONE
8. Other observers who independently identified the bird: LOUISE HANCHEY,
JEANNE SACHS
9. Light conditions (position of bird in relation to shade and to direction and amount of light): EXCELLENT, BRIGHT + SUNNY, Cloudless
10. Optical equipment (type, power, condition): Good 7x35 Bin.
11. Distance to bird: APPROX. 20 to 30 ft. AT times
12. Duration of observation: Approx. 20 min.
13. Habitat: Open fields, scattered trees, RICE fields
14. Behavior (flying, feeding, resting, etc. - include and stress any habits used in identification): SOARING, hovering over fields

15. Description (Include only what was actually seen, not what "should" have been seen). Include if possible: total length or relative size compared to other species present or familiar species; body bulk; shape, bill, eye, leg and plumage characteristics. Stress features that separate it from similar species:

All white underneath, reddish wash on top of tail,

no breast band, and the wing patches on top.

with other Red tails in area easy to mark differences

17. Similar species (include how they are eliminated by your observations):

The Kaibab's Red-tail

SEE NO. 15
