LOUISIANA BIRD RECORDS COMMITTEE

Report Form

This form is intended as a convenience in reporting observations of species on the Louisiana Bird Records Committee (LBRC) Review List. The LBRC recommends the use of this form or a similar format when submitting records for review (to assure that all pertinent information is accounted for). Attach additional pages as necessary. Please print or type. Attach xerox of field notes, drawings, photographs, or tape recordings, if available. Include all photos for more obscurely marked species. When completed, mail to Secretary, Louisiana Bird Records Committee, c/o Museum of Natural Science, 119 Foster Hall, Louisiana State University, Baton Rouge, LA 70803-3216.

	s Committee, c/o Museum of Natural Science, 119 Foster Hall, Louisiana State
Univers	ity, Baton Rouge, LA 70803-3216.
4	English and Scientific names: White with a Scientific names:
1.	Melanita jusca
2.	Number of Individuals, sexes, ages, general plumage (e.g., 2 in alternate
	plumage): / remale
3.	Locality: LOUISIANA: Camaron
	Ruther ford Beach (sout 5 miles with or camps)
	- Authorford Beach (about 5 miles was of amps)
4.	(specific locality) Date(s) when observed: 17 - 26 - 75
4.	Date(s) What observed: 17 -2 6 - 13
5.	Time(s) of day when observed: 4:00 p. M.
6.	Reporting observer and address:
	Reporting observer and address: Regar J. B. J. Solver observer and address: Regar J. J. J. J. Solver observer and address: Regar J. J. J. J. Solver observer and address: Regar J. J. J. J. Solver observer and address: Regar J. J. J. J. Solver observer and address: Regar J. J. J. J. Solver observer and address and addr
	31 1/2 21360
7.	Other observers accompanying reporter who also identified the bird(s):
1	Raybera Breedlove
8.	Other observers who independently identified the bird(s):
9.	Light conditions (position of hird in relation to shade and to discuss a second
J.	Light conditions (position of bird in relation to shade and to direction and amount of flight): Bird was a specific was a spec
<u> 1</u>	Task, The sun was just we would fine. The sky was
10. G	Optical equipment (type, power, condition); adout sould be seen-
	100- NOWO-40X-Excellent
11.	Distance to bird(s): 25 4 or 50
12	Duration of observation: 18 - 15 minutes
- - •	
13.	Habitat: Culy just of shore
	any just - // are

14.	Behavior of bird / circumstances of observation (flying, feeding, resting; include and stress habits used in identification; relate events surrounding observation):
	Feedrly (dove on occasion)-proceed, etc.
15.	Description (include only what was actually seen, not what "should" have been seen; include if possibly: total length/relative size compared to other familiar species, body bulk, shape, proportions, bill, eye, leg, and plumage characteristics. Stress features
	that separate it from similar species): Lorge, Lark group-brown bird larger than nearby Scarp. Heavy be died.
	Dork bill, w/a slaping head profile-though not quite or pronounced as the Surf
	Scoters seen manual before. White who paled on secondaries were visible
	alx Time. Indistines whoish volumes
16.	Foice: NA
17.	Similar species (include now they were eliminated by your observation): Sur Sen let 5 lack the who palehas as do the Black Scotos. Gardyall is a dablat doesn't hive, has black rumpt
18.	Photographs of tape recordings obtained? (by whom? attached?) Ped horseraced,
19.	Previous experience with this species: None - it was a life life. The first man time ()
	(However, I've looked for it many times)
20.	identification aids: (list books, illustrations, other birders, etc. used in identification):
	a. at time of observation: N.G. + Peterson's
	b. after observation:
21.	This description is written from:
22.	Are you positive of your identification if not, explain: A650 well
23.	Signature of reporter: 12-28-75 6:50
