Discussion: Found during the NOCBC by the NW party who alerted others on the count. When we arrived James Beck *et al.* were still there. The bird was out of sight for several minutes, but was finally re-spotted on the far shore in bright glary light.

FYI I returned to Lake Willow on January 8 with no luck. We also searched several nearby lakes without success that day.

The last sightings in Ebird were on 1/01/21 <https://ebird.org/checklist/S79065402>.

May the LBRC have permission to display in whole or in part this report and accompanying photos on the LOS-LBRC website and LBRC Facebook page? Yes

If yes, may we include your name with the report? Yes
