⭐⭐☆☆☆

**1  Western/Eastern Wood-Pewee**

Spotted by Paul while driving; stopped to study. Silent. Tried playback of both species with no response. Did respond to Western Screech-Owl playback by flying 50 yds towards tape and appeared to try to land on overhead wires .... but then flew off into acacia scrub and did not return.

Are you submitting a **complete checklist** of the birds you were able to identify?

**No**
